MAGNESIUM CHLORIDE ICE MELT PELLETS

THE SUPERIOR SNOW & ICE MELTER

Directions: Apply 2-4 ounces per square yard of pavement just prior to or after the immediate onset of precipitation. This will melt the initial snow or ice and help prevent a solid bond from forming with the pavement. Shovel or scrape off any accumulated snow before reapplying. Reapply as necessary, but do not over apply. When used as directed, **NEDMAG ICE MELT PELLETS** is perfectly safe on all kinds of pavement and harmless to vegetation. However, all deicers increase the number of freeze thaw cycles and if used on concrete of poor quality, less than one year old or in excessive amounts, may hasten the occurrence of scaling or flaking of the concrete surface. **NEDMAG ICE MELT PELLETS** is the least spalling of other deicers. **NEDMAG ICE MELT PELLETS** work faster and at lower temperatures than other deicing products.

Other uses: **NEDMAG ICE MELT PELLETS** is also a superior product for use in **dust control, tennis court and horse ring conditioning, and tire ballast**. It is significantly more user and environmentally friendly than other alternatives.

Storage: Product attracts moisture. Keep package tightly sealed after opening. Store in dry area where any seepage or leaking presents no problems.

Warning and Precautions: While **NEDMAG ICE MELT PELLETS** is less toxic than table salt, like any chemical, you should be cautious. **KEEP OUT OF THE REACH OF CHILDREN.** **NEDMAG ICE MELT PELLETS** is easy to handle and typically non irritating to all but the most sensitive skin. However, it is recommended after handling any ice melter to wash hands or other body areas after contact. Do not take internally and avoid eye or prolonged skin contact. If accidentally ingested, drink large amounts of water and induce vomiting. In case of eye contact, promptly flush eyes with plenty of water for at least 10 minutes. Contact a physician. **NEDMAG ICE MELT PELLETS** is not intended for food or drug use.

Notice: The manufacturer or seller cannot control the purchaser's use of this product. Therefore, if this product causes damage to persons or property, the purchaser agrees that his sole and exclusive remedy against the manufacturer or seller will be the return of the unused portion of this bag and refund of the purchase price.
