

# Ammonium Phosphate 16-20-0

**DESCRIPTION: A HOMOGENEOUS HIGH PHOSPHATE FERTILIZER FOR MAINTENANCE AND PRE-PLANT APPLICATIONS**

## BENEFITS: BEST® Ammonium Phosphate 16-20-0:

- Is a homogeneous fertilizer (homogeneous means that each pellet contains the same ratio of nutrients) to prevent nutrient segregation and insure even and uniform distribution of the fertilizer (no streaking).
- Contains 13% sulfur to enhance plant color and density. Sulfur aids in drought tolerance and winter hardiness.
- Is an economical and effective pre-plant fertilizer when used in conjunction with potassium or where soils are sufficient in their potassium levels.
