

Contains Microbes, Citrus Oil and Cleaners

InVade™

bio cleaner

Mop/Spray Cleaner • 32 Applications

Directions for Use

InVade Bio Cleaner contains microbes that eliminate odors and eat through scum where flies can breed, and citrus oil and cleaners for extra power. For mopping, apply 4 oz to a standard bucket (about 3 gallons) of mop water. No other cleaners are needed. After mopping, pour remaining mop water in drains. For best results, use at least three times a week. For other greasy, scummy areas, use 50% diluted InVade Bio Cleaner in a spray bottle and spray areas until moist, or use as a crack and crevice treatment. InVade Bio Cleaner may also be used in power sprayer systems. Do not rinse treated areas or use bleach, caustic cleaners or disinfectants in mop or spray water.

CAUTION: Keep out of reach of children. May be harmful if swallowed - seek medical attention and do not induce vomiting. Avoid contact with skin and eyes. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for persistent irritation. Store in a closed, appropriately labeled container between 40 and 90 °F.
