How Liquid Fence Dual Action Rabbit Repellent really works...

While most rabbits can be repelled with scent alone, high-density rabbit populations include many young rabbits with voracious appetites, and can be an extremely persistent problem. That's why we've developed a dual-action formula that repels with both scent and taste - a guaranteed-effective, one-two punch to fight extreme rabbit problems! Professional landscapers and commercial growers have already discovered... **Liquid Fence** stops rabbit damage, **naturally!**
