

PRO-PELL-IT!

Propel Your Soil

Pro-Pell-It! products use only the finest ground Lime, Dolomite and Gypsum for fast and efficient soil penetration. Pro-Pell-It! is an excellent choice for agriculture, gardening, home lawns, golf courses, landscapes, and ornamentals. These top quality, fine mesh products are bound together with a durable binder that eliminates dust and makes your applications easy.

BENEFITS

- An excellent choice where large equipment and dust are prohibited:
 - New seedings or sod
 - Established turf
 - Gardens
 - Trees
 - Shrubs
 - Potted plants
 - Vineyards
 - Orchards
- Easy to apply granules, high in calcium (Ca)
- Promotes vigorous plant growth
- Sweetens soil (raises soil pH)
- Reduces aluminum toxicity
- Helps to structure soils
- Increases fertilizer availability to plants
- Needed on acid soils

APPLICATION INFORMATION

Recommended Application Rates

lbs./acre	lbs./1,000 sq. ft.	lbs./100 sq. ft.
2178	50	5
