

90 % SULFUR DISPER-SUL® PASTILLE

DISPER-SUL® PASTILLE Water degradable sulfur is a 90% sulfur product. Martin uses only the purest sulfur combined with a special formulation of bentonite clay and wetting agents. When applied to the soil **DISPER-SUL®** breaks down into “micro sulfur”. This process assures you that the **DISPER-SUL®** you apply today will become available plant food during the growing season.

Guaranteed Analysis

| | |
|-------------------------|---------|
| Sulfur(S) (free) | 90.00% |
| Inert Ingredients | 10.00% |
| Total | 100.00% |

Derived from elemental sulfur

| Color | Yellow-Gray |
| Sieve Analysis..... | -4 + 8 Nominal |
| Size Guide #..... | 290 |

Directions for use

Apply **DISPER-SUL®** to dry turf and incorporate into garden soils. Watering after application will aid in the dispersion of the sulfur granules. To minimize particle pick-up on turf, do not collect clippings for the first mowing after treatment. Early fall applications are preferred for lawn and gardens. If establishing a new lawn or amending garden soils, the application rates in the table below can be used during soil preparation. **In turf (foliar) applications never apply more than 4.0 lbs/ 1000 sq. ft per application or turf discoloration can occur especially during hot dry conditions.**

To Reduce Soil pH When Greater Than 7.0:

Lawn and Garden Areas:

On gardens, warm and cool season grasses, apply **DISPER-SUL®** in split applications in the spring and early fall until the desired soil pH is attained (5.6-6.5)(see table below for recommendations on different soil types. On medium to heavy textured soils (loam to clay loam) use the higher rate and frequency if a more rapid pH adjustment is desired. Soil pH should be monitored on gardens, lawns, and other turf areas when Sulfur is being used to reduce pH. Turf and garden areas should be sampled twice a year, May and November. Soil samples should be taken from the top one inch of soil.

Approximate Amount of Elemental Sulfur Needed to Reduce

| Change in pH Desired | Application Recommendation | Lbs. Of Sulfur per 1,000 sq.ft | | |
|----------------------|----------------------------|--------------------------------|------------|------------|
| | | Sandy Soils | Loam Soils | Clay Soils |
| 8.5 to 6.5 | Soil Apply only | 46 | 57 | 69 |
| 8.0 to 6.5 | Soil Apply only | 28 | 34 | 46 |
| 7.5 to 6.5 | Soil Apply only | 11 | 18 | 23 |
| 7.0 to 6.5 | Soil Apply only | 2 | 4 | 7 |

Martin Resources
4200 Stone Rd
P.O. Box 191
Kilgore, Tx 75663

CAUTION:

KEEP OUT OF REACH OF CHILDREN.

First Aid

Skin Contact: Wash with mild soap and water. Seek medical attention if irritation occurs.

Eyes: Flush with running water for at least 15 minutes. Seek medical attention if redness and irritation persists.

Ingestion: Irritation may occur, seek medical attention.

Inhalation: Remove person to fresh air. Seek medical attention

FLN 661

WARNING! BURNING SULFUR EMITS TOXIC FUMES. SULFUR DUST SUSPENDED IN AIR IGNITES. SULFUR DUST CAUSES EYE IRRITATION

Avoid contact with eyes. Keep away from heat and flames. Avoid creating dust in handling. Wash thoroughly after handling. Keep container closed. Use with adequate ventilation. Keep from contact with oxidizing materials.

IN CASE OF FIRE: Use water fog, fine spray, and or CO₂. Wear NIOSH-approved self-contained breathing apparatus.

IN CASE OF SPILL: Sweep up spillage. Place in appropriate chemical waste container. Flush area with water. Observe all local, state, and federal laws and regulations regarding disposal, spill, clean-up, removal and discharge.
