

LESCO®

POLY PLUS OPTI

Controlled-Release Fertilizer

PRODUCT OVERVIEW

LESCO® PolyPlus-Opti is a controlled release nitrogen with an enhanced, exclusive polymer coating to provide quick green-up with linear, long-lasting performance. This product may be used on residential and commercial turf, golf courses, and athletic fields for up to six months of consistent greening requiring fewer labor hours and bags of fertilizer than competing un-coated nitrogen formulations.

FEATURES

- Enhanced polymer coating releases nitrogen linearly with 45-, 90-, 120-, and 180-day options
- Precisely manages release rate to green fast while preventing wasteful release of nitrogen
- Single application maximizes labor efficiency

SUGGESTED USAGE

This granular fertilizer can be applied to residential and commercial turf and landscapes, golf courses, athletic fields and nurseries through a standard LESCO broadcast spreader.

ENVIRONMENTAL TOLERANCE

This product may be used to enhance turf nutrition and greening with extended release times in all USDA plant hardiness zones during the growing season.

BENEFITS

- Consistent Growth and Greening**
- Protection Against Nitrogen Burn**
- Increased Labor Efficiency**
- Better Return on Investment**

ANALYSIS

- 43% Polymer Coated Urea
- SAN = 95% Slowly Available Urea Nitrogen

FORMULATION

Granular Fertilizer

MODE OF ACTION

Root Absorbed

RESTRICTED USE

No

PACKAGING INFORMATION

50 lb. bag
