

LESCO® SEED STARTER 4

SUPERIOR PERFORMANCE IN ALL SEEDING APPLICATIONS

Hand | Drop Seeder | Hydroseeder

- Pellets fully expanded in less than 2 minutes
- Holds Up to 40% more water than other pellet mulches
- Best Flowing Mulch Available
- No Weed Seed
- Improves Seed to Soil Contact
- Very Low Dust
- Biodegradable
- Reduces Runoff
- Made From Recycled Paper and Corn Fiber
- Enhanced Germination
- Dark Green Color

TURNING THE MULCH WORLD UPSIDE DOWN!

PRODUCT STATEMENT

As the newest member of the Seed Starter family, Seed Starter 4 is formulated with a unique blend of paper and corn fiber. Because of its unique composition, Seed Starter 4 can be used in all types of seeding applications: hydraulic seeder, drop seeder, and by hand. For dry mulching applications: prepare seed bed, apply seed and fertilizer prior to mulching. To maximize performance, seed must have good seed to soil contact and be kept from drying out after germination. Use a quality LESCO® starter fertilizer to achieve the best results. After applying mulch, water mulch to expand and activate the pellets. Seed Starter 4 is designed to fully expand in less than two (2) minutes and to hold up to ten (10) times its weight in water. Regular watering will protect the seed from drying out and ultimately improve germination and vegetation. When fully hydrated, Seed Starter 4 has a dark green color that lightens as it dries out. Water whenever pellets are light in color. Increased application rate in case of limited watering frequency should not exceed a 2X rate.

TECHNICAL DATA	
Organic Content	>99%
Moisture Content	10% (+/-2%)
Color	Green
Water Holding Capacity	>800%
pH	6.5 (+/-1)
Weight	40 lb./bag
COVERAGE RATES	
Flat	50#/1000 ft. ²
<4:1 Max Length 30 ft.	55#/1000 ft. ²
>4:1<3:1 Max Length 25 ft.	60#/1000 ft. ²

* Not recommended for slopes > 3:1

** One 40 lb. bag covers up to 800 ft.²
