

MIRIMICHI GREEN™

Activate Nature.

NUTRI-RELEASE

2-0-2

2.5 gallon and 32 oz Concentrate

There are fertilizers and then there is **Mirimichi Green Nutri-Release**. Nutri-Release is a powerful, effective formula that contains more than instantly available organic compounds designed to deliver the essential elements plants need in order to thrive. Nutrients in Nutri-Release are less than 400 Dalton size and its patent-pending nanotechnology optimizes absorption and makes nutrients available through roots and leaves. But Nutri-Release does more than feed plants and surrounding soil; it improves the performance of any insecticide, fungicide or herbicide, which extends your investment in these products. And, because of its high concentration of rich organic compounds, Nutri-Release also helps improve water retention and water quality. Do more than fertilize; improve the environment and reduce your bottom line every time you apply Nutri-Release.
