

BRANDT® Converge Foliar Nutrition with Nitamin® Extended Release

BRANDT Converge formulations contain Nitamin, a targeted foliar nitrogen and patented liquid nutrient source. It is designed to make some nitrogen immediately available, while reserving the rest to provide a steady supply of nitrogen.

BRANDT CONVERGE Key Benefits

- Nitamin is applied directly to the leaf surface for rapid absorption and green-up
- Low salt index and low levels of ammonia and biuret, it is a safe fertilizer solution
- Due to its high N concentration, it stays soluble longer - delivering enhanced foliar uptake over an extended period of time
- Compatible with a wide range of micronutrients and plant protection chemicals

Enhanced Nitrogen Uptake

Source: University of Florida, Dr. Gene Albrigo, Dr. James Syvertsen

Application and Use

For best results, apply twice a month as a foliar spray early in the morning, or late in the day. Allow foliar sprays to dry thoroughly before irrigation to insure even foliar uptake.

Product	Rate
For Warm or Cool Season Turfgrasses	
Converge SRN 18-3-6 Converge SRN 18-0-6	Maintenance: 4 fl oz per 1,000 sq ft or 1.25 gallons per acre Renovation: 6 fl oz per 1,000 sq ft or 2 gallons per acre
Converge 12-0-12	Maintenance: 5 to 7 fl oz per 1,000 sq ft or 1.75 to 2.50 gallons per acre Renovation: 8 to 10 fl oz per 1,000 sq ft or 2.75 to 3.50 gallons per acre
Overseeding	
Converge SRN 18-3-6 Converge SRN 18-0-6	8 fl oz per 1,000 sq ft or 2.5 gallons per acre
Converge 12-0-12	12 to 14 fl oz per 1,000 sq ft or 4.25 to 5.00 gallons per acre
Converge SRN 30-0-0	Turf application: apply throughout the growing season on cool, warm and transitional grasses. Dilute with water according to desired nitrogen rate, typically 0.25 - 0.9 lb nitrogen per 1,000 sq ft.

BRANDT® Converge Product Formulations

BRANDT Converge 12-0-12

12-0-12 | 0.5% Fe | 0.4% Mn

6.6% Urea nitrogen

5.4% Other water soluble nitrogen*

Derived from urea, methylene urea, triazone, potassium carbonate, iron EDTA and manganese EDTA

*5.4% Slowly available nitrogen from triazone and methylene urea.

This product contains two forms of nitrogen: a readily available component which provides quick green-up and a controlled-release component which ensures a consistent and steady delivery that resists leaching.

BRANDT Converge SRN 18-0-6

18-0-6 | 0.05% Cu | 0.1% Fe | 0.05% Mn | 0.05% Zn

0.6% Nitrate nitrogen

12.0% Urea nitrogen

5.4% Other water soluble nitrogen*

Derived from potassium nitrate, triazone, methylene urea, urea, potassium polyphosphate, copper EDTA, iron EDTA, manganese EDTA and zinc EDTA.

*5.4% Slowly available nitrogen from triazone and methylene urea.

This product contains slowly available nitrogen and a fully chelated micronutrient package. Provides quick greening without rapid top growth. Nitrogen promotes consistent turfgrass shoot growth.

BRANDT Converge SRN 18-3-6

18-3-6 | 0.05% Cu | 0.1% Fe | 0.05% Mn | 0.05% Zn

0.6% Nitrate nitrogen

12.0% Urea nitrogen

5.4% Other water soluble nitrogen*

Derived from potassium nitrate, triazone, methylene urea, urea, potassium polyphosphate, copper EDTA, iron EDTA, manganese EDTA and zinc EDTA.

*5.4% Slowly available nitrogen from triazone and methylene urea.

This product contains slowly available nitrogen and a fully chelated micronutrient package. Provides quick greening without rapid top growth. Nitrogen promotes consistent turfgrass shoot growth.

BRANDT Converge SRN 30-0-0

30-0-0

12% Urea nitrogen

18% Other water soluble nitrogen*

Derived from triazone, methylene urea and urea.

*18% Slowly available nitrogen from triazone and methylene urea.

This product contains slowly available nitrogen which promotes consistent turfgrass shoot growth. BRANDT Converge SRN 30-0-0 promotes root development and turf vigor.
