LESCO®

CarbonPro™-L with MobilEX™

Revolutionary Nutrient Optimizing Technology

COVERS UP TO 128,000 SQ FT

PURPOSE STATEMENT: LESCO® CarbonPro™- L with MobilEX™ is a REVOLUTIONARY NUTRIENT OPTIMIZING TECHNOLOGY that HARNESSSES the power of organic soil sciences to MAXIMIZE plant health and performance.

STORAGE CONDITIONS: Store product in dark fiberglass or plastic containers in cool, dry place out of direct sunlight. Protect from freezing.

WHEN TO USE: Before, after or along with fertilization program.

MIXING: SHAKE WELL and mix with sufficient quantity of water (at least 10:1 water to LESCO® CarbonPro™- L with MobilEX™ to obtain proper coverage.) Higher dilution ratios are not detrimental and may assist in achieving even coverage over the recommended area. Apply through existing spray equipment that has been thoroughly rinsed. Broadcast sprayer, hose end sprayers, hand sprayers, watering pails and injection systems are all acceptable methods of applying.

Cleveland, OH 44114

LESCO is a registered trademark of LESCO, Inc. and CarbonPro is a trademark of SiteOne Landscape Supply, LLC. MobilEX is a trademark of Turf Care Supply Corp.

NOTE: If mixing with liquid fertilizer that has not been diluted with water, dilute LESCO® CarbonPro™- L with MobilEX™ 1:1 with water before adding it to the mixture. If mixing in sprayer with liquid fertilizer, JAR TEST to assure compatibility with other products. Use caution when mixing with pesticides (jar test). When mixing with other products, avoid highly acidic or alkaline conditions.

HOW TO APPLY

Residential Turf and Landscape Plantings

Two (2) oz. per 1,000 sq. ft. followed by one (1) oz. per 1,000 sq. ft. per month or every time you fertilize.

Golf Course Greens, Tees and Fairways

Hydroseeding: Two (2) oz. per 1,000 sq. ft.

Athletic Fields

Two (2) oz. per 1,000 sq. ft. (2 3/4 qts. per acre) every time you fertilize.

Nurseries

Soil: Initial: 42 oz. per 100 gal. of water. Maintenance program (Every 3-4 weeks): 21 oz. per 100 gal. of water.

Drench: Initial: 21 oz. per 100 gal. of water. Maintenance program (every 3-4 weeks): 21 oz. per 100 gal. of water.

Can be tank mixed with most fertilizers, herbicides and insecticides.

Not intended for use with food crops.
