If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

Hawkeye is a modified organo-siloxane (OSS) adjuvant system designed to enhance the performance of active ingredients by significantly improving spreading and coverage.

May be used in aquatic applications; consult the relevant aquatic herbicides for recommendation on use rates.

The added wintergreen fragrance will help to mask any odors in the tank mix. The fragrance is completely inert and non-reactive, and will not affect active ingredient performance.

The fragrance is only temporary and will disappear within 1-3 days following application.

DIRECTIONS FOR USE

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Caution should be used when applying this or any other product during hot, dry conditions.

Do not spray to run-off.

Though phytotoxicity has been evaluated, care should be taken by testing this product on sensitive plants before full application is performed.

Order of addition

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable powders (WP) then flowables (F, DF)
2. Agitate then add anti-foaming compounds or buffers
3. Liquid and soluble products
4. Emulsifiable concentrates (EC)
5. Hawkeye and other adjuvants

USE RATE

Use the chart below to determine how much Hawkeye to add to the spray mix.

Tank Mix Volume	3% v/v	0.5% v/v
1 gal.	1/3 oz.	2/3 oz.
3 gal.	1 oz.	2 oz.
10 gal.	4 oz.	6 oz.
50 gal.	20 oz.	32 oz. (1 qt.)
100 gal.	38 oz.	64 oz. (2 qt.)

STORAGE AND DISPOSAL

Storage: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. Store between 40° and 90° F.

Disposal: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.
