

Specticle[®] FLO

Active Ingredients: indaziflam

Formulation: flowable

WSSA Group: 29

Signal Word: no signal word required

Best Uses

- Pre-emergent herbicide controls the most troublesome grassy and broadleaf weeds, as well as annual sedges
- Extended residual control of annual bluegrass (*Poa annua*), goosegrass, crabgrass and 75 more weeds

Key Strengths

- Broad spectrum pre-emergent weed control
- Long residual
- *Poa annua* control
- Low use rates

Attributes Of Specticle[®] FLO

- Controls weeds by inhibiting cellulose biosynthesis – its primary site of action is the newly developing root of a germinated weed seedling
- No stains, no odor formulation
- Mixable with post-emergent herbicides
- Newer mode-of-action – controls weeds known to develop resistance to other herbicides
- Works in turf, landscapes and hardscapes

Poa annua

Eleusine indica

Digitaria sanguinalis

How To Apply

- Apply to turf before weed seeds germinate
- Use as a broadcast treatment or directed spray on bare ground or mulched areas around labeled ornamental plants and grasses
- Adequate soil moisture is needed to activate Specticle FLO and provide maximum control
- If weeds are present, tank-mix Specticle FLO with selective, post-emergent herbicides like Revolver[®], Celsius[®] WG or Tribute[®] Total
- To control emerged weeds in plant beds, dormant turf, cart paths or parking lots, use in conjunction with a non-selective herbicide

Use Rates For Single Application Of Specticle FLO

Target Weed (single application)	Specticle FLO Use Rate (fl oz per acre)
Crabgrass Goosegrass Annual bluegrass Broadleaf weeds	6.0 - 10.0
Annual sedge Kyllinga	10.0

Use Rates For Split Application Of Specticle FLO

Target Weed	Initial Application Use Rate (fl oz per acre)	Follow-up Application (within 45 - 90 days) Use Rate (fl oz per acre)
Crabgrass Goosegrass Annual bluegrass	4.5 - 9.0	3.0 - 9.0
Broadleaf weeds	6.0 - 9.0	3.0 - 9.0
Annual sedge Kyllinga	9.0	6.0 - 9.0

Use Rates For Multiple Applications Of Specticle FLO

Target Weed	Initial Application Use Rate (fl oz per acre)	Second Application (within 30 - 45 days) Use Rate (fl oz per acre)	Third Application (within 30 - 45 days) Use Rate (fl oz per acre)
Crabgrass Goosegrass Annual bluegrass*	3.0 - 4.5	3.0 - 4.5	3.0 - 4.5

*Specticle FLO 2(ee) allows these use rates on annual bluegrass in the following states: AL, AZ, AR, CO, FL, GA, HI, IN, IL, KS, LA, MD, MS, MO, NC, OH, OK, SC, TN, TX, UT, VA, WV.

goosegrass

large crabgrass

spotted spurge
