

BRANDT® Loch Ness® SS

Super Strength Black Lake and Pond Colorant

The use of BRANDT LOCH NESS SS adds a natural beauty to ponds, lakes and lagoons, aesthetically improving their appearance.

When used as directed, this product will not stain or harm fish or wildlife. BRANDT LOCH NESS SS is a Bird Blocker formulation designed to darken water sufficiently to protect against fish poaching in aquacultural environments.

When treating ponds, allow this product to fully disperse before fishing, swimming or irrigating.

BRANDT Loch Ness SS Advantages

- Aesthetic treatment for shallow or muddy ponds and lakes
- Non-toxic, harmless to fish and wildlife
- Compatible with most herbicides and algaecides
- Economical and longer lasting

Application and Use

Apply BRANDT LOCH NESS SS at the rate of 1 qt per 1 surface acre of water 4-6 feet deep. If a deeper color is desired, use additional product

After measuring the pond or lake, and calculating the amount needed, add approximately half that dosage to several parts of the lake or pond, to insure even dispersion. After half of the dosage is incorporated, add the balance of the colorant until the desired color is achieved. Wear rubber gloves to protect hands from staining and eye protection when handling BRANDT LOCH NESS SS.

CAUTION/KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin. If product comes into contact with skin, wash thoroughly. In case of eye contact, wash thoroughly with clear water. Harmful if swallowed. Do not reuse container.

Storage and Handling

Keep product closed when not in use. Store in a cool dry location.

See product label for complete instructions.
