

# Savio Skimmerfilters®

## THE FUTURE IS CLEAR®

Our patented Skimmer UV feature eliminates green water and the dependence on harmful chemicals. Our Livingpond® technology allows you to relax and enjoy your leisure time around the pond. You have worked hard enough, let our engineered product work for you!

Removes up to 85% of floating debris from the water surface for a cleaner, clearer pond

4-in-1 filtration: skimmer, leaf basket, UV purifier, and bio-filter for healthy, clean, clear water

Protects your pump from debris and clogging, extending your pump's lifespan over time

Spacious pump chamber holds most high volume pumps

All in one approach to simplify pond installation

The only skimmer with patented, built-in UV option for optimal water clarity

Face Plate Not Included with Standard Skimmerfilter

Standard Skimmerfilter SS0000 - For Ponds Up To 12,500 Gallons

Have a crystal clear pond with the SS0000, F100 and 50 Watt UVinex as seen above!

## SAVIO COMPACT SKIMMERFILTER®

The Compact Skimmerfilter is suitable for ponds up to 5,000 gallons and the total filtration solution for ponds up to 1,500 gallons.

Savio Skimmerfilters are the only skimmers on the market with a patented integrated UV system (sold separately).

The skimming action pulls debris from the surface of the water and captures it in a rigid leaf basket for easy cleaning; no mess!
