

## FELCO 6

### Product Description

An excellent all-round choice, these compact, high-performance pruning shears / secateurs provide outstanding reach and cutting power. The FELCO 6 combines exceptional ergonomics with a comfort in use which enables the highest cut quality every time, regardless of your hand size.

### Features

Every feature of the FELCO 6 contributes to their supreme comfort across the full range of pruning tasks. Pick them up and the compact, lightweight feel is combined the sturdy cutting power that comes from blades constructed from high quality hardened steel. The one piece forged aluminium handle only adds to their intrinsic robust functionality. The angled cutting head creates a natural extension of the hand for even greater ergonomic comfort, while rubber shock absorbers deliver a soft closing action that protects the wrist against strain. The micro-metric setting mechanism allows for easy adjustment of the cutting head for that scalpel-like precision which exemplifies every FELCO pruning tool and makes them so indispensable.
