### GENERAL DESCRIPTION

LESCO CharZorb™ is a finely ground, flowable activated charcoal. It can be used to reduce the available level of most organic pesticide residues in the soil. CharZorb does not deactivate inorganic pesticides such as, but not limited to, compounds of arsenic (MSMA, DSMA), lead, sodium chlorate, sulfur, borax, etc. CharZorb can also be used to reduce plant damage from petroleum product spills, such as hydraulic oil.

### DIRECTIONS FOR USE

- #1 Shake vigorously for 1 to 2 minutes.
- #2 Fill tank at least 1/2 full of water before adding CharZorb.
- #3 Keep solution agitated during use.
- #4 Remove fine screens from spray filters and nozzles prior to use as some screen plugging is possible.
- #5 Empty sprayer completely and rinse well. **DO NOT ALLOW PRODUCT TO SIT IN SPRAYER WITHOUT AGITATION.**
- #6 Slight discoloration may occur in some sprayers.

### APPLICATION RATES

**For Organic Pesticides:** Apply 32-64 oz of CharZorb in sufficient water for adequate distribution per 1000 square feet. Grass areas should be washed free of heavy charcoal deposits. Treated areas should be watered thoroughly and may be seeded 24 hours following application.

**For Spills:** Apply 32-64 oz per 1000 square feet of contaminated area. For severe spills, apply CharZorb at full strength and wash into soil and root zone 4-6 inches deep.

2LBL000059 07/01

**For Spray Tank Cleaner:** Use Lesco-Sol™ to clean tank and rinse thoroughly. Fill the tank half full with water, add 1/2 gallon of CharZorb per 50 gallons of water. Fill the remainder of tank with water. Circulate for 10 minutes and empty tank by spraying through boom, nozzles, or spray gun.

### CAUTION:

#### Keep out of reach of children.

Users are cautioned to take reasonable safety precautions when handling and applying this product. Do not use on food crops destined for human or animal consumption. Completely empty and rinse spray tank after use.

### WARRANTY

LESCO warrants that this product, when used in accordance with label directions under normal conditions, is reasonably fit for its intended purposes. Since timing; method of application; weather, plant and soil conditions; mixture with other chemicals; and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
