# ADMIRAL® LIQUID

## FIRST AID

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going in for treatment.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

## ENVIRONMENTAL HAZARDS

Shoreline non-target plants (cattails, water lilies) may suffer contact burn if material is accidentally poured on them. Apply this product only as specified on the label. Do not make applications when weather conditions favor drift from target area. Do not apply where runoff is likely to occur.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## APPLICATIONS

Use in natural or man made ponds, lakes, fountains, fish farms, fish hatcheries, golf courses and swimming ponds. Water must be under the complete control of the user and have little or no outflow (dye concentration must be maintained). Do not apply directly to streams, or any body of water that may be used for human consumption. Do not apply to water for swimming pools if chlorine is used, as color will degrade.

## APPLICATION PROCEDURES

Admiral Liquid is easy to apply and rate calculations are simplified. Consult the recommended dosage chart for suggested rates. Optimum results are achieved by applying prior to or early in the growing season when weeds are on the bottom of a body of water or when aquatic vegetation is growing at depths greater than 2 feet. Reapply as needed during the growing season.

Admiral Liquid is usually applied directly from the container near the shoreline. However, Admiral Liquid may even be applied while ice is still covering a body of water. Pour Admiral Liquid on the ice in a circle approximately one yard (approx. 1 meter) in diameter. The ice will melt and Admiral Liquid will be dispersed into the water beneath the ice.

Physical removal or other aquatic weed control methods may be used before or after applications of Admiral Liquid. When using an aquatic herbicide, follow all label restrictions, precautions and directions for use.

## RECOMMENDED DOSAGE RATES

Area to be treated	Rate of Admiral® Liquid	
	1 ppm <sup>(1)</sup>	2 ppm <sup>(2)</sup>
1 acre-foot (325,851 gal) <sup>(3)</sup> (1,234 cubic meters)	1 quart (0.95 liters)	2 quarts (1.9 liters)
4 acre-feet (4,936 cubic meters)	1 gallon (3.8 liters)	2 gallons (7.6 liters)
8 acre-feet (9,872 cubic meters)	2 gallons (7.6 liters)	4 gallons (15.2 liters)

- (1) The following weeds are controlled at 1 ppm when growing at depths greater than 2 feet: Filamentous Blue and Bluegreen Algae, *Chara*, Leafy Pond Weed, *Spirogyra*, Slender Naiad, Water Milfoil (treat early).
- (2) For prevention of *Hydrilla* tuber production, apply at 2 ppm after an herbicide treatment.
- (3) One acre-foot is an area comprising 1 acre, 1 foot deep.

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store above 32°F (0°C) to prevent freezing.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by State and local authorities, by burning. If burned, avoid inhalation of smoke.
